Ding!

2026 / Casual Timing

Mobile Games

DESCRIPTION

A portrait one-tap elevator timing game where precise stops build combos while misses cost hearts.

GAMEPLAY

Watch the moving floors, tap when the destination aligns, and adapt to faster travel profiles while maintaining a high-score run.

ROLE

Designed and built the full Unity game, including deterministic stop evaluation, progression, feedback, ads, and leaderboard integration.

Arrow Flow

2026 / Puzzle

Mobile Games

DESCRIPTION

A clean one-tap puzzle game about reading blocked paths and clearing every arrow from an evolving board.

GAMEPLAY

Send arrows off the board in a valid order, build streaks, and solve increasingly complex layouts with special tile rules.

ROLE

Built the complete Unity release, including a guaranteed-solvable procedural generator, special tiles, scoring, ads, and Google Play Games leaderboard support.

Block Garden

2026 / Puzzle

Mobile Games

DESCRIPTION

A calm portrait block-placement puzzle with row and column clearing, combos, and a cozy garden presentation.

GAMEPLAY

Drag one of three pieces onto the board, complete rows or columns, and manage space while chasing a higher score.

ROLE

Built and published the complete Unity game, including drag-and-drop play, scoring, generated visuals, ads, and Google Play Games leaderboards.

Ojol Life: Food Delivery Game

2025 / Simulation

Mobile Games

DESCRIPTION

Life simulation about food delivery, traffic, stamina, fuel, and city rhythm.

GAMEPLAY

Players explore the city, deliver orders, and complete quests.

ROLE

Built order, customization, fuel, stamina, and early game-design systems.

Downtown Rush

2024 / Casual

Mobile Games

DESCRIPTION

Casual city runner with characters, cosmetics, obstacles, and power-ups.

GAMEPLAY

Players dash, slide, collect coins, and survive city hazards.

ROLE

Handled design, programming, and gameplay mechanics.

Taxland

2024 / Simulation

HTML5 Games

DESCRIPTION

3D taxation simulation where players learn through quests and exploration.

GAMEPLAY

Players explore, talk to NPCs, and complete tax-related tasks.

ROLE

Handled dialogue design, programming, and gameplay mechanics.

Collecto Frenzy 3D

2024 / Casual

Mobile Games

DESCRIPTION

3D object-matching collection game focused on precision and timing.

GAMEPLAY

Players rotate the board and match objects before space runs out.

ROLE

Handled design, programming, and gameplay mechanics.

Catmelon: Kitty Merge Fever

2024 / Casual

Mobile Games

DESCRIPTION

Cute merge puzzle game inspired by the Suika-style fruit formula.

GAMEPLAY

Players drop and merge cats while preventing the container from overflowing.

ROLE

Handled programming and core gameplay mechanics.

Brickball Mania

2024 / Casual

Mobile Games

DESCRIPTION

Casual brick-and-ball level game built around collection and progression.

GAMEPLAY

Players clear objects, manage space, and complete levels under pressure.

ROLE

Handled design, programming, and gameplay mechanics.

Animal Chase

2023 / Hyper Casual

Mobile Games

DESCRIPTION

Hyper-casual animal escape game set in a forest chase.

GAMEPLAY

Players avoid hunters and traps while keeping distance.

ROLE

Designed levels, core gameplay, analytics, ads, and IAP.

Dragon Ranch

2023 / Hyper Casual

Mobile Games

DESCRIPTION

Dragon ranch simulation about raising, breeding, and renting dragons.

GAMEPLAY

Players train dragons, serve customers, earn money, and expand the ranch.

ROLE

Built core gameplay, analytics, ads, IAP, and managed team delivery.

Swoosh Ball

2023 / Arcade / APK available

Android & iOS Games

DESCRIPTION

3D basketball arcade game focused on swipe shooting and wind physics.

GAMEPLAY

Players shoot in multiple modes, manage wind, and chase high scores.

ROLE

Handled design, programming, and gameplay mechanics.

Jump and Boom

2023 / Arcade / APK available

Android & iOS Games

DESCRIPTION

3D platform arcade game about climbing through hazards and power-ups.

GAMEPLAY

Players jump across platforms, avoid obstacles, and climb for score.

ROLE

Handled design, programming, and gameplay mechanics.

Puzzling Polygons

2023 / Puzzle / APK available

Android & iOS Games

DESCRIPTION

2D hexagon puzzle game with timed challenges and leaderboards.

GAMEPLAY

Players place pieces strategically to solve each puzzle.

ROLE

Handled design, programming, and gameplay mechanics.

Krispy Kreme Game

2023 / Augmented Reality

Mobile & PC Games

DESCRIPTION

AR obstacle game controlled through front-camera head movement.

GAMEPLAY

Players tilt their head to guide a donut around obstacles.

ROLE

Handled design, programming, and gameplay mechanics.

KFC AR Game

2023 / Augmented Reality

Mobile & PC Games

DESCRIPTION

AR collection game built around branded chicken-bucket interaction.

GAMEPLAY

Players scan a logo and catch falling chicken with a bucket.

ROLE

Handled design, programming, and gameplay mechanics.

Goya Universe

2023 / Web3 / Discontinued

HTML5 Games

DESCRIPTION

Web3 virtual-world prototype with exploration and digital-asset concepts.

GAMEPLAY

Players explore a blockchain-integrated world and interact with systems.

ROLE

Implemented core gameplay and Photon synchronization.

Yudi si Anak Magang Housekeeping

2022 / Simulation

PC Games

DESCRIPTION

Interactive narrative about working as a housekeeping intern.

GAMEPLAY

Players follow hotel housekeeping tasks through guided interactions.

ROLE

Designed gameplay, art, story, and dialogue database.

Sleep Gravity

2022 / Platformer

HTML5, Mobile & PC Games

DESCRIPTION

Multiplayer side-scrolling platform race with obstacle-card strategy.

GAMEPLAY

Players choose cards to survive obstacles and outrun opponents.

ROLE

Designed gameplay, art, and Photon multiplayer backend.

Heisters

2022 / Tactical Shooter

Mobile Games

DESCRIPTION

3D tactical shooter about raiding bases and building a stronger squad.

GAMEPLAY

Players lead heisters, steal safeboxes, and upgrade their base.

ROLE

Built core gameplay, analytics, IAP, and managed team delivery.

Javanese Cuisine

2021 / Simulation

PC Games

DESCRIPTION

Cultural cooking simulation about running a Javanese food stall.

GAMEPLAY

Players sell food, buy ingredients, and upgrade the stall before day 30.

ROLE

Designed game flow, storyline, and core gameplay.

TaxSim

2021 / Simulation

Mobile & PC Games

DESCRIPTION

Pixel-art tax education simulation set in an Indonesian tax office.

GAMEPLAY

Players follow tax-service quests and play learning-focused mini games.

ROLE

Designed gameplay, art, story, and dialogue database.

Adventure of Hanacaraka

2021 / Adventure RPG

HTML5 & PC Games

DESCRIPTION

Top-down cultural adventure RPG built around Hanacaraka characters.

GAMEPLAY

Players control two characters to solve puzzles, fight, and unlock stages.

ROLE

Designed levels, story, UI/UX, art, and core gameplay.

Kompleks Lalu Lintas

2021 / Simulation

Mobile & PC Games

DESCRIPTION

Traffic-rule learning simulation with puzzles and trivia.

GAMEPLAY

Players explore the complex, complete guidance tasks, and play mini games.

ROLE

Designed gameplay, art, story, and dialogue database.

Tag Runner

2020 / Platformer

HTML5, Mobile & PC Games

DESCRIPTION

Multiplayer tag platformer with quick chases, power-ups, and competitive rounds.

GAMEPLAY

Players chase or evade the tagger while collecting power-ups.

ROLE

Designed core gameplay and Photon multiplayer backend.

The Covid Hero

2020 / Hyper Casual

HTML5, Mobile & PC Games

DESCRIPTION

One-hand educational hyper-casual game inspired by pandemic safety themes.

GAMEPLAY

Players help people, avoid hazards, and collect score-boosting perks.

ROLE

Designed gameplay, art, core systems, and Firebase leaderboard.

Life of a Dropshipper

2020 / Simulation

PC Games

DESCRIPTION

Business simulation about completing customer orders and growing a digital store.

GAMEPLAY

Players complete orders, earn money, and upgrade tools.

ROLE

Designed gameplay and item databases using JavaScript and Python.

Mysticalypse Dungeon

2020 / Roguelite

Mobile & PC Games

DESCRIPTION

Roguelite dungeon adventure about collecting Mystic Crystals to save a village.

GAMEPLAY

Players clear stages, defeat monsters, solve puzzles, and upgrade weapons.

ROLE

Designed levels, core gameplay, and item databases.

Isolated Forest

2020 / Horror Survival

HTML5 & PC Games

DESCRIPTION

Horror survival game about gathering resources while surviving an unknown forest.

GAMEPLAY

Players farm, hunt, mine, craft, and survive night threats.

ROLE

Designed core gameplay, crafting systems, and item databases.

Hide n Seek Nusantara

2018 / Simulation

Mobile Games

DESCRIPTION

Cultural hide-and-seek simulation set across Indonesian landmarks.

GAMEPLAY

Players chase hiders, collect coins, and use perk crates.

ROLE

Designed gameplay, art, core systems, IAP, Firebase, and profile services.

LaterPin: Remind Me Later

2026 / Productivity

Android App

DESCRIPTION

A privacy-focused reminder app for saving shared links and text, then resurfacing them through local notifications at a useful time.

PRODUCT

Capture from Android's share menu, schedule one-time or recurring reminders, organize history and tags, and work offline without an account.

CONTRIBUTION

Designed and built the native Android product end to end with Kotlin, Jetpack Compose, Room, AlarmManager, RTL localization, and Google Play Billing.

TillTally: Cash Counter

2026 / Business Utility / In review

Android App

DESCRIPTION

An offline-first cash-drawer counter for counting denominations, reconciling expected cash, and calculating deposits.

PRODUCT

Count bills and coins, compare actual and expected cash, save immutable closing records, manage drawers, and export CSV, PDF, or JSON backups in English, Arabic, and Indonesian.

CONTRIBUTION

Designed and built the native Android app end to end with Kotlin, Jetpack Compose, Room, DataStore, exact money calculations, localization, export systems, and Google Play Billing.

Watch Fidget

2026 / Publishing Support

Wear OS

DESCRIPTION

A smartwatch collection of tactile mini fidgets for quick, playful Wear OS interactions.

PRODUCT

Offers touch-friendly spinner, pop-it, slime, dice, drums, and other small interactions designed for Wear OS.

CONTRIBUTION

Managed Google Play release preparation and publication for the project.

Furniture AR

2023 / Augmented Reality

Mobile App

DESCRIPTION

AR furniture visualization app for placing products in real spaces.

PRODUCT

Users scan the floor, place furniture, and adjust position or scale.

CONTRIBUTION

Handled full application development.
